DEPARTMENT OF BUILDINGS,

MR. C. S. KEMPTON, *General Manager, Dudley Blind and Shutter-Worker Co.:*

Dear Sir:—I have made a personal examination of the DUDLEY BLIND AND SHUTTER WORKER and I consider it the best fixture I have ever seen for the purpose, and that it commends itself to those interested in the building business.

Yours very truly,

W. H. GAYLOR,

Commissioner Department of Buildings.

BROOKLYN, April 3d, 1883.

We, the undersigned Architects of the City of Brooklyn, N. Y., have seen the "DUDLEY BLIND AND SHUTTER WORKER," and take pleasure in recommending it as a useful blind fixture:

Parfitt Bros., "The Garfield" Building.
R. B. Eastman, 26 Court Street.
J. G. Glover, 219 Montague Street.

John Mumford, Phenix Building.
I. D. Reynolds, 363 Fulton Street.
William A. Mundell, Phenix Building.

Robt. Dixon, 219 Montague Street.

ENDORSEMENTS.

CHICAGO, ILL.

TO WHOM IT MAY CONCERN:

We have carefully examined the DUDLEY BLIND AND SHUTTER-WORKER, and do not hesitate to endorse it fully on its merits, having seen it in actual operation. We shall specify it for work that we may be called upon to superintend where outside blinds may be used.

April 7th, 1883.

DIXON & TOWNSEND, Architects,
Room 22, 102 Washington St., Chicago, Ill."

MESSRS. MATTESON & GARDNER.

Gents:—Upon examination of the DUDLEY BLIND AND SHUTTER WORKER we take pleasure to testify that we consider the same the best hanger and opener for outside blinds ever invented. It is an appliance which will make outside blinds again desirable, where they were formerly omitted on account of the inconvenience of opening the same. We can recommend the shutter worker to any one, who desires outside blinds to their homes.

CHICAGO, June 15, 1883.

Very respectfully,

BAUER & HILL, Architects.

CHICAGO, June 6th, 1883.

DUDLEY BLIND AND SHUTTER-WORKER CO.

Gentlemen:—We have examined your device for the operation of outside window blinds, and upon a careful examination of the said device we are unanimously satisfied that it is a great improvement upon the ordinary method now in use, and that it is calculated to give commensurate satisfaction to any one for the trifling increased cost in its application.
